PECANS DEMANDED BY BRITISH, RE SAYS

American Trade Representative Urges Shipments of Paper Shell Variety.

England offers an exceptional market right now for American food, especially fruit, says Edward Foley, San Francisco lawyer who was chief of the enforcement division of the United States Food Administration during the war, and who is serving as agricultural trade commissioner of the American Embassy at London. Mr. Foley is in New Orleans on his way home, but stopped off at several points to start the ball of opportunity rolling.

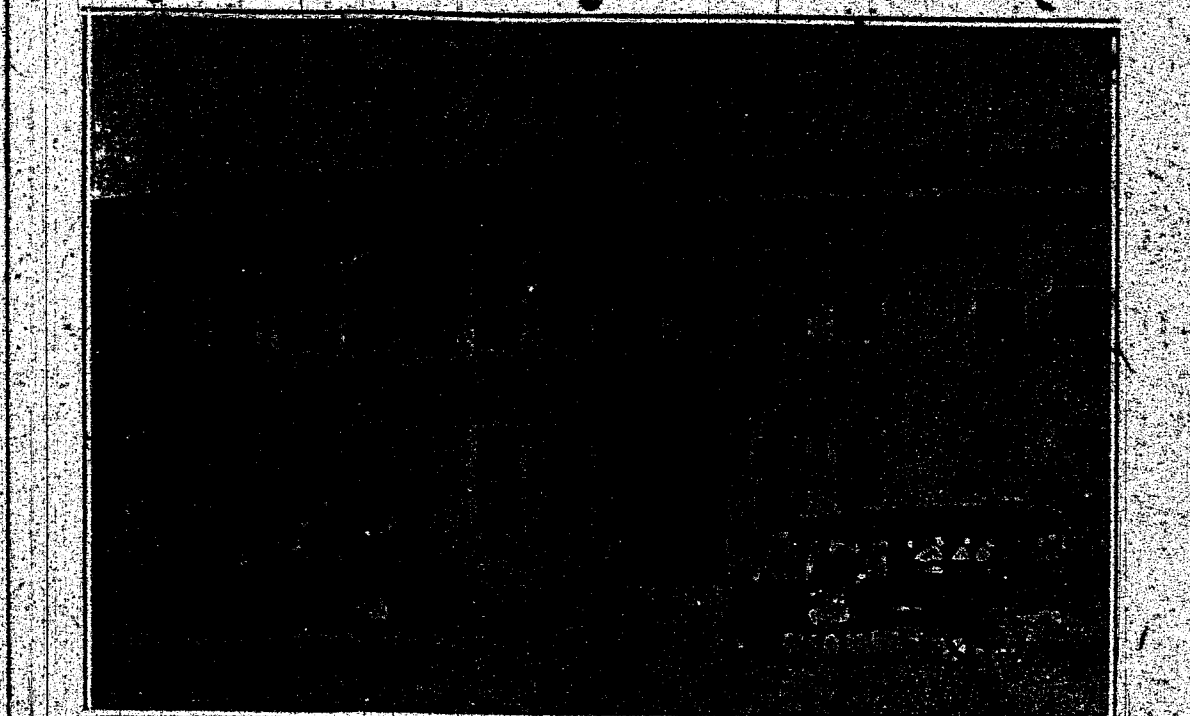

Mr. Foley's special message to Louisiana is to send over her surplus of paper shell pecans. The British know only the hard-shell common kind, and would pay the price for the improved delicacy. In the same way he encouraged Georgia to ship some of her peach crop overseas. Abroad they know only the hot-house variety, which are very expensive, to that the profit would be large. He thinks safe carriage could be insured by adopting the method employed in wrapping the forced fruit, which is to wrap each peach separately in wood-wool and cotton, after the manner in which eggs are handled. There are other opportunities just as attractive.

The scope of Mr. Foley's office includes mainly foodstuffs and cotton, marking the condition in which American wares arrive, and watching the markets for them. America is already doing an enormous fruit business in England, over 2,000,000 barrels of apples coming in last year. The only apple rival is Canada. England is looking to this country for sugar, which means the sweet is scarcer there than on this side, with no supply in sight for the near future. The British have formed the exclusive habit of two tablets to a cup of tea. The stuff is sweeter than sugar, but said Mr. Foley "you know that it is not sugar or in sugar's class." General conditions over there have improved a lot, he commented, but the low exchange rate is still a serious matter. "The most interesting subject with which we have to deal," remarked Mr. Foley, "There is a voluntary tax of 2 cents a bale at all ports to cover the cost of the campaign. The general impression is that the time has come for Great Britain to raise the action for her own spindles. Conditions in Egypt do not inspire continuance of the hope of a source of supply in that country. So new fields are being sought especially along the Gold Coast of Africa. England is worried over the number of soldiers in the United States and Japan, and the conviction prevails that they will eventually absorb all the cotton grown in America. The British idea is first to find adaptable soil and area and attention will then be turned to the matter of grades best to raise."

The foregoing, taken from the New Orleans Times-Picayune of Sunday's date, containing Mr. Foley's message, can be applied to Mississippi as well as to Louisiana, especially to our own Gulf Coast, and The Echo reproduces it for that purpose.

The very high value of the nut as a source of protein, fat and starch entitles it to a higher plane of usefulness than as a dessert delicacy or confection only. It is fast becoming a chief source of food, and is so recognized by the best authorities. The increasing recognition of the value of the nut is shown by the fact that importations of nuts and nut products in the fiscal year 1917 were valued at \$33,000,000. It is, moreover, the most valuable crop produced by trees.

A GREAT OPPORTUNITY TO BUY GOVERNMENT BONDS AT LESS THAN THEIR VALUE.

The bonds of the United States are the safest securities in the world and the present market price, which is very much under their real value, offers an extraordinary opportunity to make an absolutely safe investment at the high rate of return upon the money paid for the securities.

These bonds are the best in the world because:

This is the greatest, richest and most powerful nation in the world. It has never failed to pay promptly the interest and principal of its obligations.

It has no debt capital than any other nation.

Its resources are the richest and its people produce more and earn more than any other people.

Money is cheap now, but it will almost certainly be scarce and dearer when these bonds mature. Consequently it will buy more than now.

Your money invested in these bonds now has three great advantages: low cost, high rate of return and higher purchasing power of the dollar you will get back.

Hon. John Skelton Williams, Comptroller of the Currency, in a statement issued on May 26th, has this to say about Government bonds as an investment:

"For the first time in half a century, those who have money to invest have now the opportunity of buying the safest security on earth, on a basis which will yield, during the life of the investment, an average income of more than 6 per cent per annum. This is three times a snitch at the interest paid on United States Government 2 per cent bonds, which in times past have sold above par."

You can buy these bonds in such sums as you desire through your bank or trust company.

All right, Bill— You can stop reading 'em

BILL TOLD me HE HAD a good joke ON THE maker OF A well-known brand OF CIGARETTES. LAST NIGHT, Bill said HE READ an ad OF THIS cigarette IN A magazine. IT SAID "They Satisfy." AND THIS morning, IN HIS newspaper, HE READ "They Satisfy." AND ON a billboard, AND ON a card, IN THE street-car, AND IN the dealer's window, AND ON the counter, HE READ "They Satisfy."

AND HE bought a pack OF THESE cigarettes. AND I asked him "WHERE'S THE joke, Bill?" AND BILL said, "WHY the darn fools, SPENDING THEIR money, PICKING ON me." SO I said, "You bought 'em, DIDN'T THEY satisfy?" AND BILL said "Sure, BUT HERE'S the joke, FOR OVER a year, I'D ALREADY been smoking THAT BRAND."

WE admit it, the joke's on us. And over three million other smokers are "in on it" with BILL. But the real joke is on anyone who looks for "Satisfy" anywhere but in Chesterfields—for the Chesterfield blend can't be copied!

Stomach Troubles Made Him Feel Sick at Meal Times, But Now Always Enjoys His Meals.

DO YOU enjoy your meals? Eat without the dread of the after-effects?

Lack of appetite and a disagreeable, sick-at-the-stomach feeling after meals, usually indicate that your digestive organs are not working properly. As a result, you will feel weak, lose weight, and lack the energy that is to be derived from well-digested food.

A valuable help in correcting such conditions is mentioned by the Rev. E. K. McKenzie, Route 1, Section, Ala., who writes: "I had stomach troubles."

When I would go to eat, I would turn sick. I took one bottle of Ziron, and it cured me. Am always ready for my meals and enjoy them. I think it is a fine medicine."

If your food hurts you, if your appetite is poor, if you are pale, weak, and run-down, and have other symptoms that indicate your system needs help, try Ziron. It will put iron into your blood and help build you up. Take it according to directions, and if not benefited by the first bottle, the money back guarantee will protect you. Ask your druggist.

For more than Forty Years Cotton Growers have known that POTASH PAYS

More than 11,651,200 Tons of Potash Salts had been imported and used in the United States in the 20 years previous to January, 1915, when shipments ceased. Of this 6,460,700 Tons consisted of

KAINIT

which the cotton grower knew was both a plant food and a preventive of blight and rust,—with it came also 1,312,400 Tons of

20 per cent MANURE SALT

which has the same effects on Cotton, but which was used mainly in mixed fertilizers.

Shipments of both Kainit and Manure Salt have been resumed but the shortage of coal and cars and high freight rates make it more desirable to ship Manure Salt, which contains 20 per cent of actual Potash, instead of Kainit, which contains less than 13 per cent actual Potash.

MANURE SALT can be used as a side dressing on Cotton in just the same way as Kainit and will give the same results. Where you used 100 pounds of Kainit, you need to use but 62 pounds of Manure Salt, or 100 pounds of Manure Salt go as far as 161 pounds of Kainit.

MANURE SALT has been coming forward in considerable amounts and cotton growers, who cannot secure Kainit, should make an effort to get Manure Salt for side dressing to aid in making a big Cotton Crop.

Muriate of Potash

50 per cent actual Potash, has been coming forward also.—100 pounds of Muriate are equivalent to 400 pounds of Kainit or 250 pounds of Manure Salt.

These are the three Standard GERMAN Potash Salts that were always used in making cotton fertilizers and have been used for all these years with great profit and without any damage to the crop.

The supply is not at present as large as in former years, but there is enough to greatly increase the Cotton Crop if you insist on your dealer making the necessary effort to get it for you.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are so extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promise of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited by it.

A prominent druggist says: "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Adv.

JUNE TIME IN DIXIE

(Mrs. Helen W. Bradley)

June time in Dixie—
The air is full of balm;
June time in Dixie—
The world is full of charm;
June time in Dixie—
Bird songs greet my ear,
Full of melody and beauty;
And I seem in them to hear
All the sweetness,
All the richness
Of the summer of the year.

June time in Dixie—
The world seems all in tune;
Seems longing to commune
The lyrics of nature
With the souls of Men and Women
In a call so deep, so clear;
Full of freshness and of beauty,
And I seem in them to hear
All the beauty in the air
Of the summer of the year.

June time in Dixie—
And I greet you on the Coast
With a greeting that holds in it
The joy of familiar toast.
Here's to love and life and laughter,
All the charm and all the cheer,
Full of love and warmest welcome;
And I hope in this you'll hear
All the greeting in these meeting
In the summer of the year.
Jackson, Mississippi.

Hundreds of statements of accounts to subscribers of The Echo are being made and mailed out these days, and we would respectfully ask the recipients of these for their attention and consideration. The high cost of news print paper continues, another advance having gone into effect since June 1st by the Western Newspaper Union, from which comes our news paper, and which will eventually force many of the smaller weeklies and other publications out of business. The situation can best be met by our subscribers who will be so considerate as to pay promptly on receipt of statement, which will be sent to one and all, regardless of business affiliation or personal regard. The carrying of delinquents is a burden too heavy these days for publishers to be carrying. The label on your paper tells the date of the time to which your subscription is paid. Why wait for a statement?

—Mr. C. C. McDonald is not only a successful young business man but has made quite a success in home gardening as is best evidenced by the Irish potatoes he has grown on his premises in Main street. His potatoes are not only well rounded and solid, but easily average a pound each and are of fine eating quality. The Government tells us every man (and every woman for that matter) who has a home and must combat the h. c. 1. should have a home garden, and Mr. McDonald has proven that it can be done with very little effort and successfully. The elements of economics that enter into such effort ought to appeal to every right-thinking person.

—Mrs. John Connor met with quite a painful accident in New Orleans last Saturday afternoon while crossing Canal street in an effort to get an L. & N. train for home. —A pretty church ceremony, and one that was largely attended, took place Sunday afternoon at the church of Our Lady of the Gulf. The occasion was the annual coronation of the Blessed Virgin Mary, and brought to a formal close the evening devotions which took place daily during the month of May. The honor of placing the first crown on the brow of the blessed Mary represented by a statue placed on a pedestal, was given to little Francis Scalfide, daughter of Mr. and Mrs. A. Scalfide, after which a number of other children paid tribute in similar manner. The exercises were pretty and impressive. The choir was composed of young ladies from St. Joseph's Academy and the music was beautifully rendered.

—The Echo's new heading which has been commented upon in such complimentary terms since its adoption, is the artistic work of our esteemed townsman, Mr. E. S. von Ehren, residing in St. Charles street, whose drawing of the old English letters is historically and technically correct. Unable to center the picture of the sea coast light between any two letters, Mr. von Ehren brought to the middle of the space occupied by the heading, it was Mr. von Ehren's suggestion that placed it within the letter "C" of the word Coast, solving what appeared for a time a serious problem with more than one head, and resulting in an artistic and fetching effect. The proportion and the entire get-up is a splendid piece of work and Mr. von Ehren is entitled to all the many nice things said about our new heading. He is the chief artist and designer of one of the largest commercial firms of lithographers in New Orleans, and only draws notices but a princely salary as well. The Echo was particularly fortunate in securing the talent and services of one who is ever so busy.

Servant Girl Wouldn't Go In Collar, Fearing Rats.

—Mrs. Tupper Plainfield, N. J., says, "I was a maid in a hotel in New York, and I was once in a room where I saw a rat. I was so scared that I wouldn't go in my collar, for I was afraid it was a rat." This is a very old story, but it is still true.
